

Critical Information Summary

Super-Fast nbn™ Gamer Pro Bundle

Information About the Service

The Super-Fast nbn™ Gamer Pro Bundle service is a residential broadband internet and optional home phone service over the National Broadband Network (nbn™). The home phone service is a limited Voice over Internet Protocol ("VoIP") phone service that allows you to make and receive calls using a broadband connection. There is a limit of one MyRepublic home phone service per household. You have the option to not take a home phone service however there is no discount to the monthly plan fee. A Static IP address comes standard with the Super-Fast nbn™ Gamer Pro Bundle plan.

Bundling requirements

MyRepublic does not require that you bundle this service with any other service.

Equipment

You must purchase a MyRepublic Modem for \$99. Pricing includes delivery. You must provide your own phone handset for use with the Home Phone service.

Minimum service term

This service comes with a 12-Month minimum service term.

Limitations & qualifications

This service is available to residential users, is a residential grade service & may not be available in all areas or premises. There may be technical or commercial reasons that affect our ability to connect a service at your address. This service, including '000' dialling, will not function in the event of a power failure or disruption or an Internet outage. This service is not suitable if you are a customer with a serious illness or life threatening condition, if you require disability services, if you have a back-to-base home alarm system or if you require an uninterrupted phone line. MyRepublic does not offer Priority Assistance with this service. You will not be able to dial Satellite or Premium rate destinations (including but not limited to Immarsat, Thurya or Iridium numbers).

VoIP Numbering

You can select to transfer your phone number to MyRepublic or we can provide you with a phone number which will be allocated from the number range of your closest capital city (which will be "out of area number" if you are not located in that city). If you have an out of area number, calls to and from that number will be charged as if you are located in the standard zone unit (calling area) for the number, and you may not be able to port the number to another provider.

Installation

You may require an nbn™ technician appointment to have your service installed. You must obtain permission from the

owner of the property (if this is not you) and be over the age of 18. We do not support professional installation or in-home wiring.

Connection Fee

MyRepublic does not charge a service connection fee for customers who are transferring a service or activating a new service. If you are in a new development area and not already connected to the nbn™, a \$300 New Development Charge may also be applied by nbn™.

Broadband Line Speed

MyRepublic provides you with the maximum nbn™ access line speed available at your location at time of connection. The maximum MyRepublic nbn™ access line speed available is up to 100/40Mbps.

The download and upload line speeds stated above are the maximum theoretical line speeds that can be delivered over the nbn™. MyRepublic makes no guarantees of any kind on the actual speeds that will be achieved by any individual user as we rely on our supplier to ensure services are provisioned to deliver optimum speeds at all times. Speeds that customers experience on these services are affected by a number of factors such as the content being downloaded by the end-user, your distance and the quality of the copper from the node or basement for FTTN and FTTB services, the hardware, software, and software configuration. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable.

Co-Existence Period

A Co-Existence Period may exist for services using nbn™ FTTB and FTTN. During this period exchange based ADSL and/or special services may co-exist on the same network infrastructure as the nbn™ services. In this case, optimal speeds may not be possible due to interference from equipment or network provided by other services.

Information About Pricing

Minimum monthly charge

The minimum monthly charge for your nbn™ broadband and home phone plan is \$79.99. You pay an additional monthly plan fee for your Home Phone plan and/or amount of calls which are not included in your plan during the month.

Early Termination Fee (ETF)

Customers on a 12-Month minimum service term, will be required to pay an ETF of \$199 including GST if the service is terminated during the minimum service term. Monthly plan fees are not pro-rated on cancellation.
