

Information About the Service

The Naked ADSL and Home Phone Bundle service is a residential internet service that allows you to experience the benefits of ADSL2+ speeds without the cost of line rental and includes an optional home phone service. The home phone service is a limited "Voice over Internet Protocol" ("VoIP") phone service that allows you to make and receive calls using a internet connection. This service comes with a private Dynamic IP address.

Bundling requirements: MyRepublic does not require that you bundle this service with any other service.

Equipment: You must purchase a modem from MyRepublic. The applicable charge is specified in the table on page 2. To use the phone service, you will need to provide your own compatible handset.

Minimum service term: Month-to-Month, or 12 months.

Limitations & qualifications: This service is available to residential users, is a residential grade service & may not be available in all areas or premises. There may be technical or commercial reasons that affect our ability to connect a service at your address. You will not be able to dial Satellite or Premium rate destinations (including but not limited to Immarsat, Thurya or Iridium numbers).

Priority Assistance: MyRepublic does not offer Priority Assistance. This service, including '000' dialling and other emergency numbers will not function in the event of a power failure or disruption or an Internet outage. This service is not suitable if you are a customer with a serious illness or life threatening condition, if you require disability services, if you have a back-to-base home alarm system or if you require an uninterrupted phone line. Telstra can provide this service.

VoIP numbering: You can select to transfer your phone number to MyRepublic (a porting charge of \$25 is applicable) or we can provide you with a phone number which will be allocated from the number range of your closest capital city (which will be an "out of area number" if you are not located in that city), and you may not be able to port the number to another provider. If you have an out of area number, calls to and from that number will be charged as if you are located in the standard zone unit (calling area) for the number.

Installation: You may require a technician appointment to have your service installed. You must obtain permission from the owner of the property (if this is not you) and someone over the age of 18 needs to be in attendance. We do not offer professional installation or in-home wiring.

Connection fee: MyRepublic does not charge a connection fee for customers who are transferring an existing service or activating a new service where there is existing Telecommunications Infrastructure.

Broadband line speed: This service is an ADSL2+ service. Actual speeds will vary due to a number of factors such as the distance from an exchange, the network connecting the exchange, your equipment, software and internet traffic. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable.

Information About Pricing

Minimum monthly charge: The minimum monthly charge for your plan is \$69.99. You pay an additional monthly plan fee any Value Added Services or calls which are not included in your plan.

Early Termination Fee (ETF): Customers on a 12 Month term will be required to pay a maximum ETF of up to \$110 if the service is terminated during the minimum service term. The ETF will be pro-rated by the number of full months remaining in the minimum service term (equating to \$10 per month remaining). Customers may cancel their service at any time by giving MyRepublic up to 30 days' notice. Monthly plan fees are not pro-rated on cancellation.

Move address: For information on the process and charges when moving address view our [One Off-Charges](#).
