Important Conditions

Limitations & qualifications: This service is available to residential users, is a residential grade service & may not be available in all areas or premises. There may be technical or commercial reasons that affect our ability to connect a service at your address. You will not be able to dial Satellite or Premium rate destinations (including but not limited to Immarsat, Thurya or Iridium numbers).

Priority Assistance: MyRepublic does not offer Priority Assistance. This service, including '000' dialling and other emergency numbers will not function in the event of a power failure or disruption or an Internet outage. This service is not suitable if you are a customer with a serious illness or life threatening condition, if you require disability services, if you have a back-to-base home alarm system or if you require an uninterrupted phone line. Telstra can provide this service.

VoIP numbering: You can select to transfer your phone number to MyRepublic (a porting charge of \$25 is applicable) or we can provide you with a phone number which will be allocated from the number range of your closest capital city (which will be an “out of area number” if you are not located in that city), and you may not be able to port the number to another provider. If you have an out of area number, calls to and from that number will be charged as if you are located in the standard zone unit (calling area) for the number.

Installation: You may require an nbn™ technician appointment to have your service installed. You must obtain permission from the owner of the property (if this is not you) and someone over the age of 18 needs to be in attendance. We do not offer professional installation or in-home wiring.

Connection fee: MyRepublic does not charge a service connection fee for customers who are transferring a service or activating a new service. If you are in a new development area and not already connected to the nbn™, a \$300 New Development Charge may also be applied by nbn™ and on-charged by MyRepublic.

Broadband line speed: For information on nbn™ speeds, please refer to our [nbn™ Key Fact Sheet](#) and further information is available on our [nbn™ Speeds Explained](#) page.

FTTN, FTTB and FTTC areas: Speeds are to be confirmed once active and within 20 days of connection. If your service isn't capable of achieving acceptable speeds for the plan for which you signed up, you can exit your contract without charge by contacting MyRepublic within 10 days of receipt of your line speeds. We consider an acceptable line speed to be not less than 75% of our published typical evening speed for your plan.
